ultra greenTM
Sustainable Packaging

FOODSERVICE CATALOG 2015

Sustainable, high-performing food packaging.

You don't have to sacrifice quality or performance and neither do your customers. Ultra Green brings you premium, eco-friendly packaging made from TreeSaver™ fiber-based materials, including wheat straw, bagasse and other agriculture by-products. Our FDA-approved packaging helps you turn up the heat on your competition by offering your customers the sustainable packaging they've been craving.

Bakeable. Freezable.
Microwavable. Compostable.
Sustainable.

Designed specifically for the foodservice industry, Ultra Green packaging keeps salad bar items from seeping through, allows take 'n bake pizzas to be baked in an oven-to-table pan, eliminates the risk of plastic contamination from microwaving, offers labor- and cost-savings for bakeries and much more. Compostable, durable and able to withstand heat, cold and liquids, Ultra Green sustainable packaging stands up to whatever you dish out.

Certified gluten-free by Bia Diagnostics

Oven-safe to 425° F

(Product should not be placed in oven during preheating)

Sustainable, start to finish.

The plant-fibers we use are not only rapidly renewing and compostable, many are agricultural by-products that provide additional revenue streams for American farmers. Instead of using trees, our products start with the earth's most renewable resources and finish by breaking down through composting to replenish the soil and repeat the cycle.

Certified compostable

- Our tree-free, plant-fiber packaging is 100% compostable and biodegrades in a commercial composter in 60-90 days.
- Our clear recycled PET lids are made from recycled water and soda bottles and are 100% recyclable.
- We're certified: our plant-fiber products are ASTM 6868 certified, and all bio-plastic (PLA) products are ASTM 6400 certified.

Comprehensive packaging options, plus made-to-order solutions.

Our innovative design team is at your service, bringing the expertise and ingenuity required to envision, mold and manufacture a custom packaging solution that's environmentally friendly, cost-effective and the perfect fit for your foodservice operation. If you don't find what you need in this catalog, give us a call.

Supporting American manufacturing.

As the first sustainable food packaging company to open a USA-based manufacturing facility, Ultra Green allows you to support American manufacturing when you order our domestically made products. Our operation in Devils Lake, North Dakota, the country's heartland, brings jobs to rural communities, provides American farmers with alternate revenue streams, and speeds delivery to our North American customers while eliminating the environmental impacts of international shipments.

Sustainable Packaging

Go Ultra Green.

Our tree-free, plant-fiber packaging is 100% compostable and biodegrades in a commercial composter in 60-90 days. Our clear recycled PET lids are made from recycled water and soda bottles and are 100% recyclable. We're

certified: our plant-fiber products are ASTM 6868 certified, and all bio-plastic (PLA) products are ASTM 6400 certified.

TreeSaver™ Pizza Box/Pan

Introducing the world's first round pizza box you can actually bake in. Perfect for take 'n bake, delivery, deli takeout and even as a serving tray, the TreeSaver™ pizza box is truly something that will be noticed – and loved – by customers. Instantly set your pizza apart from the competition.

- Patented Crispy Crust™ dimple design keeps pizza fresher, longer and gives more even bake
- Round shape takes up less space – perfect for serving
- Oven-safe up to 425°F
- Perfect for take 'n bake: bake right in the pan!
- Available with either fiber or clear recycled PET lids
